**Official Times Note**

It is atypical to have one timer handle more than one lane at a meet. At this meet, there were three timers for six lanes. Only one of the timers wrote the times to the hundredths, which is how times are typically recorded at competitions. I have listed all the times that did not have 100ths listed as ###.99.

**Time Books**

Make a time book for each swimmer. Learn how here: <https://youtu.be/mdBYUshprqM>

**Use times when entering a meet.**

It's fun for swimmers to get to find out if they achieved a best time right away. Use your swimmers best times when entering the meet. This is not required, but highly recommended. If you have a time book it's easy to find the best time for each entry.

**We swim for good times! ®**

This is the Face-Up First motto. It has the dual meaning of fast times on the clock and fun times whenever we get together to swim. Thanks for being part of our good times at Splash Meets!
